JUMBO MAYO STAND

During the last decade, many new surgical procedures were developed requiring large instrument trays which the conventional Mayo stand simply cannot handle. Additionally, many surgical procedures are extended in time, requiring repositioning of the patient and even the surgical personnel and equipment. Thus, a more sophisticated and larger Mayo stand has become essential.

Besides a large instrument tray, which may be swiveled directly over the patient for the surgeon's or the scrub nurse's easy access to the instruments. The Jumbo Mayo Stand may also be utilized for placing on it such equipment as electrosurgical units, monitors, etc.

TECHNICAL DATA:

- All stainless steel rugged construction, great mobility, height adjustable and a large 360° rotatable top which provides optimal utility for even the largest instrument tray.
- The **ELMED JUMBO MAYO STAND** is mounted on a T-shaped stable base of stainless steel. Thus, even equipment can be placed on it without the risk of tipping. The base is also fitted with electrically conductive wheels that feature a locking mechanism.
- The height adjustment from 36" to 53" (91 cm to 135 cm) is accomplished by a foot operated hydraulic cylinder with a central mounted lever for easy accessibility. The table top may be rotated 360° and locked into position by a locking knob.
- The stainless steel tray, 28" x 20" (71 cm x 51 cm)* is detachable and it may be put into the autoclave if desired. The tray itself has raised edges to prevent small instruments or equipment from sliding off.
- Mayo Stand weighs 80 lbs
